Hi all

By now you would have either read or heard that David Palaamo and his crew have changed sides and that they are planning with the support of James & Grant to play in Melbourne Oct 2009.

By now you also know that David is a hand full and only ever considers himself and his player and not necessary speaks for New Zealand as a hole, nerveless we at AIMMNA wish them well and thank them for the support in the past.

This brings me to the point I guess you all are asking now, what about AIMMNA what will they do now? NO New Zealand? Will the Perth event still happen? What future are they AIMMNA planning for us?

Answer to all these questions, I guess depends on what support we will get from you as members of AIMMNA and what faith you have in our association, without your support and commitment AIMMNA would need to revue the direction it is currently travelling, but in saying this there is **NO** intention of cancelling any event currently planned and that includes Perth Oct 2010

There are many players within New Zealand itching to play and represent their country including many players that have played for David previously.

So to move forward these are the future AIMMNA plans currently in place.

2010 Training weekend against Thunderbirds

2010 Perth Oct Trans Tasman Cup

2011 International Challenge Cup

2012 Tour to USA

These events are as always planned for three grades Open Men, Open Mixed & 23's & under.

What will you need to do to show your support?

- 1) Advise us of your decision either way via e-mail, phone or post
- 2) Send an e-mail confirming your intention for Trans Tasman Perth 2010
- 3) If committed for 2010 your deposit will need to be banked by no later then Jan 15th 2010

- 4) Provide a short note on what future direction you would like AIMMNA to take in relation to promotion and elite tournaments.

On behalf of AIMMNA we would like to thank you for the past support and hope you see that what we have done in the past as a positive and support us in the future.

TALK IS CHEAP

AIMMNA has always delivered.
